ORDINANCE No. 274 WILL BE AMENDED

SUPERVISORS CAREFULLY CONSIDER HIGHWAYS BEFORE ORDERING CHANGES.

Board Will Assist R. R. Commission In Investigation of Telephone Rates, and Regulations.

The board of supervisors met in regular session Monday, October 18th, there being present Jos. M. Francis presiding, James T. Casey, Wm. H. Brown, John MacBain, and C. V. Thompson.

The minutes of September 27th, October 4th and 11th were read and approved.

On motion of Brown, seconded by MacBain, it was ordered that the previous action of the board in allowing the claim of James Willison for $1608.27, be recinded. The claim was for freight on rock from Watsonville to Tunitas.

Joseph J. Bullock, representing the truck men and teamsters of the county, many of whom were present at the meeting, addresed the board in reference to amending sections 3 and 7 of ordinance No. 274, governing traffic on the county highways. Mr. Bullock stated that the enforcement of the ordinance in its present condition, was inflicting a great hardship upon the truck owners and teamsters. He submitted for the board's consideration certain proposed changes in the ordinance to cover the objections of the truck owners and teamsters.

Mr. Bullock called F. G. Miner, manager of the Kelly Springfield Construction Company, who gave expert testimony on the construction of different classes of trucks. their weights and uses in different parts of the country.

P. H. McEvoy, as an authority on teaming, was called and he gave his opinion as to the tonnage that could be carried on different width tires, without any material damage to the roads.

Others who addressed the board in the matter and explained wherein they were effected by the present ordinance were Con Cullen, A. Hess, J. B. Peckham, W. O. Graves, C. F. Kane and J. Hopkins.

A general discussion of the various features of the ordinance and of the proposed changes therein followed, which was indulged in by the members of the board, District Attorney Swart, County Surveyor Neuman, Attorney Bullock and the interested truck owners.

At the conclusion, District Attorney Swart addressed the truck owners and explained to them how the members of the board, Engineer Neuman and himself had worked for months getting up the ordinance, threshing out every detail of it, and considering in every way possible the interests of the truck owners and teamsters, as well as the protection of the highways.

The district attorney agreed that some of the provisions of the ordinance should be amended; and he suggested that the members of the board, the engineer and the district attorney should go into executive session and thresh out the matter thoroughly. Certain necessary changes would be made and the interests of the truck men fully considered. The changes made in the ordinance would be given to the press as soon as possible and prosecutions would be carried on only in accordance with the said changes. The cases now pending for violating the ordinance, the district attorney said he would ask the court to postpone from week to week.

The board adjourned at 12 o'clock for the noon recess.

Afternoon Session

The board reconvened at 2 o'clock, having been in executive session.

The traffic ordinance was taken up and on motion of Thompson, seconded by Brown, the district attorney was instructed to make certain amendments to the ordinance, as agreed upon by the board.

These changes are noted in a letter from the district attorney to the traffic officers, which appears in another column.

At the resuest of Auditor Shields, and on motion of Casey, seconded by Brown, a resolution allowing Mrs. Koen $20 per month aid was changed to read $25 per month.

On motion of Casey, seconded by Brown, the superintendent of the county hospital was instructed to make arrangements to send William Schaffer, an inmate of the hospital, and a sufferer from tuberculosis, to Soledad, at a cost not to exceed $25 per month.

On the recommendation of Supervisor MacBain, and on motion of Brown, seconded by Casey, it was ordered that the hospital bill of Mrs. Pease, kindly cared for by Dr. Dykes, be paid.

On the recommendation of Surveyor Neuman, and on motion of MacBain, seconded by Brown, the contract of Dan Flynn for the construction of portions of the Menlo-Portola road was accepted as completed.

On the surveyor's recommendation and on motion of Thompson, seconded by Brown, the contract of Henry Layaz for the construction of three timber bridges on the Pescadero to Santa Cruz county line was accepted as completed.

The George H. Rice Abstract Co. presented a map of Laurel Terrace No. 2, situated at San Carlos. A resolution approving of the above map and accepting the San Carlos road shown on the map, was adopted, on motion of Brown, seconded by Casey.

A communication from the Spring Construction Company, asking for additional time in which to complete certain jobs on the Colma to Half-moon Bay road was laid over for action until the next meeting.

A communication was received from the Railroad Commission of California stating that they had entered into a state wide inquiry into the rates, rules and regulations of the Pacific Telephone and Telegraph Co., covering all the company's local exchanges in California. The commission requested the board to submit at the first hearing, October 25th, in San Francisco, all complaints with reference to telephone rates or service in this county.

After considerable discussion in this important matter, as to the best and quickest way to secure this information for the commission, it was decided that each member investigate conditions in his own district and furnish the county clerk with all complaints, so he could forward them to San Francisco in time for the meeting.

A communication from Mayzellia A. McCarthy, general chairman of arrangements of San Mateo County's Woman's Auxiliary of the P. P. I. E., asking for the board's moral and financial co-operation in the plans to hold a day in honor of Lord and Lady Aberdeen in November, was ordered filed.

On motion of MacBain, seconded by Brown, the claims of the Burlingame Publishing Company for $122.90, due on postal cards purchased and printing done; and of J. V. Neuman for $167.40, on account of freight, were allowed.

On motion of MacBain, seconded by Brown, the clerk was authorized to advertise for bids for building certain culverts along the Middlefield road in the Third township.

On motion of Brown, seconded by Casey, Surveyor Neuman was instructed to prepare plans and specifications secure separate bids and award the contract for the building of a culvert on the county road near Beresford.

The board adjourned at 3:15 p. m. to meet Monday, November 1st.

Garage and Auto Burned.

A garage and automobile belonging to Ad. Sahlberg of 311 Cedar street were destroyed by fire late Sunday night. The fire is believed to have been of incendiary origin. Splendid work on the part of the fire department, which was quickly on the scene, saved the adjoining buildings, which were threatened when the flames started to spread.

HUNTER IS FOUND DEAD IN HIS CABIN ON THE MARSH

Hans H. Schnipper, a carpenter of San Francisco, aged 41 years, was found dead Saturday night in his cabin on the marsh east of the Littlejohn place. An inquest was held Monday morning by Coroner Brooke at the Crowe undertaking parlors and it was found that Schnipper's death was caused by apoplexy. The man had come down from the city on a duck hunting expedition.

Hunting Season Opens

The opening of the duck and quail season last Friday brought the hunters out in large numbers. Good bags were secured by the local nimrods, although the ducks are reported as not so plentiful as in former years. A party consisting of Guy Hull, Frank Marcus, George Genochio, Louis Genochio and Erbie Lowe went across to the Alameda side and each got the limit. Others to secure the limit of ducks were Charles Gould Jr., Tom Maloney, Willie Williamson and Heine Beeger. Surveyor J. V. Neuman and his brother Arthur, and Tom Flynn were among those who found good hunting in the hills, getting good bags of quail.

CITY OFFICIAL PAPER

NON-PARTISANSHIP

There has been much misrepresentation of the character and purport of the non-partisan laws in the public discussion of them on the part of their proponents. The real issues have in a large measure been concealed. To say that these laws will have the effect only of adding seven or eight state officers, and the members of the legislature to the list of state officers now elected non-partisanly, is rank misrepresentation. Unless we are misinformed, the only state officers now elected non-partisanly are the judges, and the State Superintendent of Schools. All others are elected partisanly. These non-partisan laws make radical changes in our whole state electoral system. The men who are back of them really favor the appointment of all state officers, except the governor, lieutenant governor and controller. A constitutional amendment to that effect was introduced in the legislature in the session of 1911, and passed the Assembly, but such an outcry was made against it by the public press of the state, that it was abandoned. No executive of this state ever had the appointment of so many state officials as our present executive has, and for one who pretends to believe so fully in the rule of the people, he has certainly shown accumulation of appointive power in that branch of the government over which he presides.

These non-partisan bills in no way protect party organization, even in national affairs. The new registration law which is a most important and indispensible part of this new non-partisan scheme prohibits a voter from declaring his party affiliation when he registers. The law which it repeals compelled him to do so, if he wished to participate in the nomination at the primary of candidates of the party to which he belonged. But it is provided by the non-partisan law that a voter may on election day when he enters the booth, declare his party, and shall be entitled to vote the ticket and for the candidates of the party thus named by him. This is an old device which will be found in the primary laws of this state way back in 1872, before primary elections were put under the protection of the law, when the political boss could line up his "political rapscallions,, and "ward-heelers," and vote them as he pleased. There is nothing in these non-partisan laws to prevent the same thing being done today by designing men who want to nominate the senatorial and congressional candidates of any particular party. The former registraton law furnished some safeguard to the honest voter, but the new law throws the gates wide open to all kinds of frauds upon election day.

We are told that there is no necessity for the existence of parties in state affairs, why not? In what way is the citizen more concerned in national politics than in state politics? Why is he more concerned in the election of a president or a congressman than in the election of a governor and members of the state legislature? Are not all state questions which are not purely administrative ones political questions? Is not the sufferage question as much a political question when it concerns the people of the state as when it concerns the people of the whole nation? Is it not so with the question of taxation, and with all the other manifold questions of state policy which come before the people from time to time to be decided by them at the polls? For instance, are not the eleven propositions which we are all to vote on next Tuesday, political questions? Certainly they are. A man who asserts that we should have national political parties, and party organizations because we are to elect two senators and a dozen or more congressmen, to represent us in Washington; and that we have no need of them in state affairs where all the questions of government that concern us most, and the laws under which we live and breathe, are decided and made, is a mere tyro in the science of government. State governmental questions concern us all a hundred times more than do national questions.

These non-partisan laws are the most audacious and revolutionary legislation ever attempted in any state. The present direct primary laws have been working excellently since 1909, and should be given a fair trial, and not changed. Under them it is possible for the people to make their own choice of candidates for every elective state office, and what more can any sensible and law-abiding people want?

"Better to bear the ills we have,
Than fly to others that we know not of."

Our advice is to all of our friends, to vote against these non-partisan bills.

CHANGES IN TAXATION

At present no changes in the constitutional provisions concerning taxation can be made except by a majority vote of the people. If we approve Senate constitutional amendment No. 38—No. 9 on the ballot, October 26th, it will be possible for the legislature at any session to make radical changes in the revenue and taxation system.

Constitutional amendment No. 9 seeks to give the legislature power to make withdrawals of properties from local taxation: "The Legislature may designate certain classes of subjects as taxable in whole or in part for state revenue."

Do the people wish to surrender these powers and confer them on the legislature? Do the people want to give their approval, on Oocober 26th, to new methods of state and local taxation which have not yet been drafted and which, when adopted by the legislature, cannot be referred to the people through the referendum? These are grave questions which should be carefully considered by our people before voting for such radical changes.

It is not so well known that in San Mateo County we have the lowest assessment of improvements of any county in the state. How long would the low assessment of improvements stand with a state commission looking for an increase in state revenues, a commission with power not only to raise our entire assessment roll, but also to raise any class of property on the roll?

The adoption of constitutional amendment No. 9 means that our people will give their approval to a system of taxation not yet written, and that in matters of taxation the people will surrender their powers to the legislature. To San Mateo County it means increased taxes. We should make some important changes in our revenue and taxation system, but by all means let the people decide what these changes shall be.

INTERESTING MEETING OF TOWN TRUSTEES

Liquor Dealers Have License Suspended, and all Night Dances are Prohibited.

A lively interest was taken by the citizens of this city in the second meeting of the town board of trustees which was held Tuesday evening. Beside a full attendance of the board there were over fifty citizens present.

A. Pilrini, proprietor of the Tremont Hotel on Main street, being cited to appear before the board and show cause why his license should not be revoked, appeared before the board and in answer to the complaint of October 3rd made by Silvester Douglass, acting night watchman, explained that on that evening he was entertaining relatives from Salinas by serving them an Italian Dinner with wine. He denied having sold liquor at that time. Numerous complaints had been made against the way in which his saloon was conducted and he had been warned on several occasions. His license was suspended until November 1st, 1915.

John Meyers, who conducts a saloon at Five Points, also had his license suspended for six months. He was charged with having sold liquor to a minor, which he admitted presuming that the lad was over twenty-one years of age. Mr. Meyers was represented by Attorney O'Keefe and J. J. Schields sustained his complaint. The board was unanimous in both these actions.

The attention of the board was again called to the investigation of the local rates of the Pacific Telephone and Telegraph Company by a communicication from the RailRoad Commission before whom the rate case will be heard. The matter was referred to Trustee Hahir, chairman of the public service committee.

An application for permission to make a contact on one of the city's poles on Vera avenue by the Pacific Gas and Electric Company was granted.

The board ordered the installation of street lights on Brewster avenue in the Redwood Highlands at a total cost of $414, the work to begin at once.

Because of the recent increased destruction of street light globes by fire arms the board instructed the marshal to pay particular attention to any one violating the ordinance, prohibiting the discharge of firearms within the city's limits.

Mrs. Britton, in person presented a claim for $69 covering alleged damage done to her property through an oversight of a city official. The matter was referred to the city attorney who was given full power to settle the claim.

The George H. Irving company presented a map of Oak Knoll Manor for the board's approval. This new tract contains 290 acres of land and is situated just west of the town limits and joins Redwood Highlands. The water supply for this new subdivision will be taken from the city's water system, as it was the sense of the board that the company be allowed to tap the water main near the resevoir and pump from there to a tank of their own which will be built at a greater elevation. The water will be sold to them at the wholesale rate.

Mr. Fowler addressed the board regarding the relative width of roadway, sidewalk and parking space on certain streets soon to be improved in Wellesley Park. The board favored a five foot space between the property line and the sidewalk and a five foot parking space on the other side of a five foot sidewalk.

A meeting of the street committee and the people owning property on Mound street will be held to decide on the work to be done on that street. Many of the owners favor a concrete base and asphalt top which is more expensive than the work the board had recommended.

George H. Irving addressed the board in regard to the narrowing of certain side streets in the Highlands. Work had been started on some of the curbs through a misunderstanding of a former ruling of the board. A number of property owners were present and objected to the narrow streets. The work was stopped and will only proceed under the direction of the board.

Reports made to the board showed gross revenues of the city for the past month to be $5888.41 and total expenditures as $2975.11. There is a balance of $4309.94 in the water fund and $947.59 in the general fund.

A deed was received from the Geo. H. Irving Company to a small piece of land on the westerly portion of Webster avenue which will remove the obstruction to a straight, broad avenue.

Superintendent Dickey was instructed to have the Broadway bridge painted and the sidewalks over the bridge kept clean. Also certain repairs to the plaster in the Marshal's office in the town hall were ordered. The city attorney was instructed to secure a copy of the Penal Code and the Code of Civil Proceedure for the use of the Recorder and the board.

Permission was granted the Albertson Realty Company to put in curbs and sidewalks on a portion of Roosevelt avenue.

City Attorney Mansfield was instructed to prepare an ordinance prohibiting all night dances. He also presented an ordinance which provides that city taxes will become delinquent on the first Monday in December.

The board requested that all reports of city officials and employees be made at the first meeting of the month.

City Attorney Mansfield stated that the money for the motor truck hose wagon bonds was in the city treasury and the board adjourned until Monday evening, October 26th, at which time bids will be opened for the new motor truck hose wagon and chemical engine.

WANT SHIPS TO LAND IN OUR LIVELY TOWN

Many Projects Planned for a Greater Redwood. Spend Your Money at Home.

The first regular meeting of the Redwood City Chamber of Commerce held last Tuesday night in the town hall made history for Redwood. The hall was packed with merchauts and private citizens and property owners and at the close of the session lasting over two hours every one left the hall breathing a spirit of optimism, and expressing the belief that the Redwood City Chamber of Commerce was a live organization ready and willing and capable of bringing to the town the measure of prosperity and development it was entitled to by reason of its situation, climate and other natural advantages. Cheers greeted the announcement that sixty-one new members through the efforts of Henry Marcus, chairman of the membership committee had joined the organization since the preliminary meeting. The total membership is now 120 with the prospects that within a few weeks the roll will be increased to 150.

Announcing the definate policy adopted by the directors of the Chamber, President Charles Landscheit gave out that the Chamber decided to concentrate its efforts on the building of a municipal wharf at the foot of Main street, "which," said the president, "will serve a great purpose. It will add strength to our request for government aid in dredging the channel, for it is a known fact that Uncle Sam, given an objective point by a municipality, is prone to lend his strength in the aid of municipal projects."

"We want ships to land right in the heart of town," declared Landscheit. "we want our harbor to begin where nature plainly said it should begin. Deep water to the foot of Main street means the making of Redwood, and we can have it through the co-operative efforts of this body. But we must first show the government upon which we are forced to call for help, just a little help, that we appreciate our own advantages. The building of a municipal wharf is equal to a message straight to Washington announcing that the people of Redwood know what they need, that we are not asking for anything which we would not give ourselves if were so situated that we could. Let us build this wharf and then we can say 'we have done our part, you do yours.'"

Vice President Tuchsen and R. F. Chilcott, chairman of the harbor committee of the Chamber, F. H. Drake, D. R. Stafford and A. D. Walsh each spoke strongly in favor of the municipal wharf, urging "that it was the one means of lending strength to Redwood's petition for government aid." Both Tuchsen and Chilcott outlined plans for obtaining the necessary frontage, and at the conclusion of hearty talks in which there was not a suspicion of opposition the entire matter was referred to the harbor committee for presentation to the city trustees.

The threatened loss of the ball park through the plan of the owners of the highway site to subdivide the land brought up the subject of municipal playgrounds and the necessity for the Chamber to look into the matter of supplying the deficiency. It was generally conceded that the city could not consider the purchase of the present site, and as an alternate proposiition A. D. Walsh declared that in connection with the development of the water front a playground with swimming tanks, could and should be considered. The matter was referred to the directors.

To H. C. Tuchsen was delegated the task of representing the organization at the meeting called by the Commonwealth Club of San Francisco for the purpose of discussing the water supply of the bay district. The meeting will be held in Festival Hall, Exposition grounds, Friday, October 29.

The plan of the San Francisco Chronicle to issue a special edition containing a peninsula section was endorsed as was also the proposition to hold a Chautauqua session here next year. The chautauqua plans were explained at length to the Chamber by C. H. Large, representative of the educators, who announced that all that was necessary to bring the chautauqua to Redwood was a guaranteed sale of 600 tickets at $2.50 each. These tickets will entitle the holder to admission to every session held during the six days the chautauquans will spend in Redwood.

Discussion of the proposed site for headquarters for the Chamber brought a report from Secretary McGettigan that only two sites were available, the basement of the court house and the Drew building. Lack of a suitable entrance to the court house basement lent merit to the Drew site, which, the secretary declared, could be had for a monthly rental of $15. The Drew site will probably be selected at the next Meeting of the directors.

The next regular meeting of the Chamber will be in the nature of a smoker, which will be arranged by the entertainment committee of the Chamber. It will be held in the Foresters' hall, the use of the hall having been tendered by A. Liguori and John J. Read. The smoker will be in the nature of a "get-to-get-her" meeting. A communication from Richard Paul regarding the license demanded from itinerant venders was referred to the trade committee.

A strong delegation from San Mateo and Burlingame asked the Chamber boost for the bus line operated by the Peninsula Rapid Transit Company. It was announced that the present temporary service would be increased as soon as road conditions permitted and that before long a half hourly service would be installed.

Redwood needs new schools. The "fastest growing town in the west" should have a growing school department. Vote for the new schools, Tuesday, November 2nd.

LOCALS PLAY MOOSE TO-MORROW ON LOCAL FIELD

Should Win Second Game with San Francisco Team

The Redwood City baseball team defeated the New Eras last Sunday by the score of 3 to 1. Fast playing and good pitching by both teams featured the contest. The visitors scored one in the fifth and it was not until the seventh that the locals put a score over. With two out and the bases full Herm came to the bat and smashed out the first ball pitched to him for a three bagger bringing in all the runners. It was a pretty hit and neatly placed between left and center fields. Chase pitched great ball and was especially effective in the pinches where with men on he made the batters look ill. Zaneck featured with a great back hand stop and turn, getting his man by a clever snap throw.

Tomorrow the San Francisco Moose will be the guests of the locals for the second time this season. The previous game resulted in a 4 to 3 victory for the Moose but only after a most sensational rally on the part of the locals. Keating will again be on the hill for the visitors and Toming still has a few good games in that old arm of his. Chase will pitch for Redwood and we all know what he can do.

JOE NASH STRONG FOR NON-PARTISANSHIP

Gives Pointed Illustration of the Folly of Party Politics

County Clerk Jos. H. Nash, who is the secretary of the County Clerk's Association is a strong advocate of the non-partisan bill which is to be voted upon next Monday. In an interview yesterday he said:

"Few, if any, will contend that partisanship should enter into the selection of a county clerk, for example.

"For myself, I was first elected county clerk of San Mateo County, in 1906. I was elected as a Republican.

"Four years later I was again elected county clerk of San Mateo County. This time I was elected as a Republican, a Progressive and a Democrat.

"In 1914 I was for the third time, elected county clerk of San Mateo County. The new plan of filling the office on the non-partisan basis was then in force. This time I was elected as a non-partisan. I was nominated without party consideration. I was elected without party consideration.

"Will any one contend that the fact that I was elected as a Republican in 1906, as a Progressive, Democrat and Republican in 1910, as a non-partisan in 1914, had anything to do with my fitness to fill the job?"

INSTRUCTIVE MEETING AT WOMAN'S CLUB

Care of the Teeth and Mouth Subject of Dr. Annie G. Lyle

Dr. Annie G. Lyle of San Francisco gave a very interesting talk at the Womans' Club at the regular meeting Thursday.

Dr. Lyle has been connected with the juvenile court of San Francisco for many years and stated that 95 per cent of the children that came under her care had decayed teeth and foul mouths. She dwelt at length on the necessity of great care and cleanliness and said that pyorrhea, adenoids and tonsil troubles and also intestinal disturbances often resulted from carelessness in the care of the teeth.

She spoke of the Japanese and Italians having exceptionally good teeth on account of excellent care and masticating coarse foods. There is a movement under foot to establish dental infirmaries so that children will be examined in the schools and sent there when the parents can not afford to pay for dentistry.

At the conclusion of this talk, Mr. Charles Large gave a brief outline of the chautauqua and its program which met with the approval and endorsement of the members of the Womans' Club.

Mrs. Bridget Doyle

Mrs. Bridget Doyle, for fifty years a resident of Portola, passed away yesterday morning at the home of Mrs. Thomas Kelly at Portola. The deceased was a native of County Tyrone, Ireland, aged 90 years. She was the widow of the late Maurice Doyle and sister of the late Hugh Kelly, at one time supervisor of this township. The deceased had been ailing for some months. The funeral will take place from the home of Mrs. Thomas Kelly, Portola at 8:45 o'clock on Monday morning, thence to the Church of the Lady of the Wayside at Portola where a requiem mass will be celebrated at 9 o'clock. Interment will be in Holy Cross Cemetery, Menlo Park.

NEWSPAPER'S SPACE

Editors are always liberal in regard to writing up local affairs, but their liberality is seldom appreciated. People who go into a grocery store to buy a bill of goods would never think of asking the proprietor to throw in a dollar or two of extra goods as a bonus, but everybody expects the newspaper man to do that very thing, although the space used is his stock in trade and his revenue is derived from it. Of course local affairs have a certain news value, but when they are given for the purpose of making money for those who put them on, it is no more than fair that the newspaper should receive the same consideration that is given the owner of the building in which the affair is held, or the tradesman from whom something is purchased to be used in the entertainment. However, it appears to be the prevailing idea that newspaper space does not cost anything, and that the editors should give it away to get rid of it and "fill it up." But the fact remains that if the editors did not put some value on their sale they would not be editors very long, and there would not be any newspapers.
